

FRIDAY **21 OCT 2016**

**9:15am - 12:15pm**

### Relational Aggression in Adolescent Girls

6 POINTS

Morning Tea

Certificate of Attendance

Cost: \$30

This workshop explores this more covert, pervasive form of damaging relationship manipulation. Courtesy of modern technology, today's young people are the first generation of adolescents unable to effectively escape or have any reprieve from behaviour such as exclusion, malicious gossiping, rumour spreading and so on. We will examine the impact of this behaviour and consider ways in which we work with these young people.

**1:00pm - 4:00pm**

### Working with High Conflict Individuals

6 POINTS

Afternoon Tea

Certificate of Attendance

Cost: \$30

Counsellors, therapists, managers, lawyers and educators are usually well placed to engage and work with respectful, cooperative clients. When we encounter high conflict individuals our expertise can be found wanting; we can feel ill equipped in knowing how to effectively work with such behaviour. Utilising skills founded in neuroscience, this workshop will provide a template for improving your ability to engage with high conflict individuals.

SATURDAY **22 OCT 2016**

**9:30am - 12:30pm**

### Traumatic Loss in the Context of Family Violence

6 POINTS

Morning Tea

Certificate of Attendance

Cost: \$30

This workshop will address the multilayered losses associated with family violence. Working with clients who have or are experiencing family violence requires an awareness of the dynamics of trauma, the short and long-term consequences of trauma and the paradox of the loss and grief these individuals experience when the relationship ends.
